

EXCAVATOR MOUNTING INFORMATION FORM

Use this form to provide the required mounting dimensions of the excavator. Although we have OEM specifications on file, we ask you to verify dimensions to ensure correct fitment of your order.

Important dimensions required: Pin Diameters, Ear Spread, Pin Center to Center.

Using a tape measure or caliper take measurements A, B, C, D as accurately as possible and complete this form. - *Note this form can be completed electronically (fillable PDF) and submitted via email.*

Note: Pin diameter measurements are typically in 5mm increments, so it is common for pins to be 90mm, 100mm etc.
